

# Media Center iPhone Video Transfer

Upload video to Media Center Editing stations and Annenberg Xchange remotely using Mobile2Air on your iPhone. The App is free and works on or off campus.

1. Install the **Mobile2Air** app on your iPhone.

2. Open the App and touch **Select Server** at the bottom of the screen.

3. Enter: ***annm2a.usc.edu*** Submit and Close that screen. You will only need to do this once, not every time you use the App.

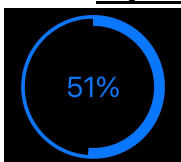

4. Login with Username: ***atvn1*** and Password: ***atvn1***

5. You can select the camera icon  or camera role  to select a pre-recorded video.

6. The video can be trimmed before you select **Choose**. The shorter the video the faster it will upload.

7. Give your clip a **name** and select **Quality: 1920X1080 (16 Mbps)**

8. Then **Upload** at the top. The upload progress will appear

9. After a few minutes the video will be available in online Xchange and the Premiere **Primestream Adobe Panel** in *Media Center Bins/Today/Video* and *Exports/Raw Source/Video*. The longer the clip, the longer it may take to appear.

You and other Media Center students can View and Download the video clip from the online Annenberg Xchange <http://mcweb.usc.edu>

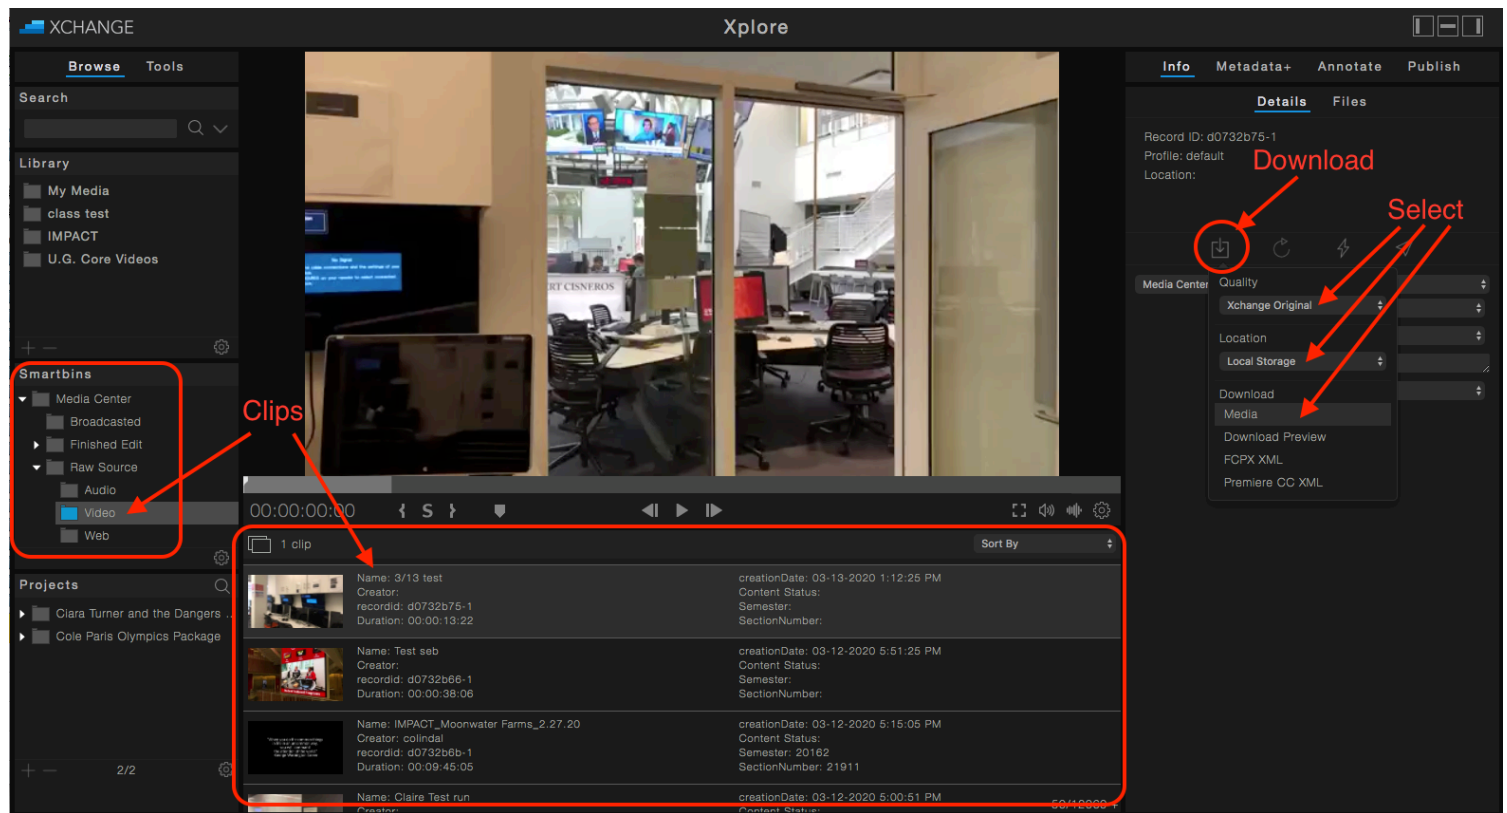

The video from your phone will be in Smartbins:

**Media Center → Raw Source → Video**

Download the clips to your computer so that you can edit them in Premiere

Click the Download icon 

Select Quality: Xchange Original → Location: Local Storage → Download: Media

Media Center students will have access to the Media Center Bins. If you don't see the Media Center Smartbin contact [cboyles@usc.edu](mailto:cboyles@usc.edu)

See the Media Center Xchange Guild for more features like Selecting a Subclip for downloading smaller sections of a clip and how to upload edited videos from your computer back to Xchange where you can also publish to YouTube.
